To whom it may concern:

I believe the Asian Carp are bad for the environment. They could make other species go extinct.

I don't believe all of the taxpayer's money should be used to prevent this but some should. It could be bad if they reach Lake Michigan. They should save some of the money for the city in case the plan for blocking the Asian Carp out doesn't work.

I dont think that the Mississippi River should be closed but they should put an invisible fence type of thing.

Sincerly,

Tehra Finn-Jackson
