Congress authorized the Army Core to PREVENT invasion of the Great Lakes by foreign species. The only way to insure this is by totally separating the Lakes from other waterways. Foreinh species like the Asian Carp with devastate the Lakes and destroy tourism, fishing and other uses the lakes provide. I strongly urge you to act as Congress authorized and use "hydrological separation" to remove this threat. Doing the right thing is not always popular with all the parties that will be effected, however, by doing what is right and necessary, you will be saving a national environmental treasure from ruin.
