For way too many years our representative was Judy Biggert. She was against ANY blocking of the rivers into Lake Michigan. In conversations with her and her office, she always stated that Commerce would be affected. It was her belief that you had to chose between commerce or the environment. She ALWAYS sided with commerce. Dan Lipinski has replaced her. He sees things a lot differently. Which is why he is not in office! We MUST protect the Great Lakes. I do want to see the rivers leading into Lake Michigan blocked off. As a person who not only follows environmental issues, I belong to the Environment Committee of Homer Glen which works hard to protect our environment. Blocking off the rivers into Lake Michigan and separating the Mississippi river from Lake Michigan is what I want to see.
