I am a seasonal resident in the town of Hammond, NY, located along the St. Lawrence River. I am very concerned about the hazards and damage that the Asian Carp can inflict on our waterways.

I don't understand why there is any doubt as to what we should do. We must prevent this invasion from entering our Great Lakes and the St. Lawrence River. Clearly, if action is not taken, everyone along these lakes and rivers will see the loss of our native fish, and bring devastation to a once viable part of our country. Please take action to prevent this!
