I suggest we rename the Asian Carp the "JGross Carp" in John Gross's honor. So that 10 or 15 years from now when we are trying to explain to our kids or grandchildren why they can't swim, boat or swim in Lake Erie. We can tell them, there was an inept man named John Gross, President Obama's choice to lead the Council on Environmental Quality. And he thought it was better to study what might happen rather than do something to stop these invaders.

I'd like Mr. Gross to know he will forever be tied to his decisions and the ramifications of them!
