I have been trying to keep informed about the Asian Carp invasion into the Great Lakes. Please consider this matter to be of utmost importance to the health of the greatest natural resource in the Upper Midwest. Consider the impact on the economy of many industries that will be affected. Fishing and tourism will be greatly affected as well as long term, possibly irreversible ecological damage to the lakes. We have the responsibility to our children and grandchildren to pass on this living trust to them. Enough money has been spent on studies. It is time for action!
