As a 57 year old born in MI, I have been blessed as all Michigianians to be able to enjoy our Great Lakes my entire life. I have vacationed in cottages along the shores enjoying all the lakes have to offer since I was a child. It is imperative to prevent invasive species from destroying our natural resource, specifically the current invasion of the Asian carp. We MUST separate the Great Lakes from the Mississippi River basin. The ramifications are astronomical to our state, affecting not only the residents (and to many their livelihood), but tourism as well, resulting in a negative effect on our economy. To have our lakes destroyed, would wreak havoc. Michigan has so much to offer with the Great Lakes-there is nothing else like it in the world. To allow this destruction to happen would be inexcusable and devastating. The only honorable, moral and right thing to do is to take action against the destruction of THE MIRACULOUS GREAT LAKES.
