The Asian Carp problem needs to be addressed NOW...not after years of study. Until the governments, i.e. state and national come up with a better solution, create barriers NOW that will INSURE that the carp cannot enter Lake Michigan. If this stops the flow of commercial traffic find other options for that commerce, but do it now!

Use a few of the hundred millions that are being given to other countries and help Illinois and Michigan save THEIR economies from this very serious threat.
