It will be a huge loss for the people of Michigan if the Asian Carp reach the Great Lakes. The carp will spread up the network of rivers feeding the Great Lakes and populate nearly all inland lakes in the state. Fishing, canoeing, kayaking, sailboating, and waterskiing will become dangerous sports throughout the state because of the jumping carp. The carp will destroy priceless recreation for millions.

The carp must be stopped now, without further delay, or it will be too late.
