Attachment: GLMRIS\_NWF\_Supporter\_Comments\_1.xlsx

Comment Submitted:

The following comments are being submitted for the 1,439 individuals listed in the attached Excel file who each signed on to submit comments on the Great Lakes and Mississippi River Interbasin Study:

Asian carp are knocking at the door to the Great Lakes. Please immediately follow the mandate from Congress to study and provide a solution for preventing Asian carp from invading the Great Lakes.

It is imperative that the Great Lakes and Mississippi River Interbasin Study (GLMRIS) follow the mandate by Congress to study "options and technologies available to prevent the spread" of invasive species movement between the Great Lakes and Mississippi River.

The Corps must not use precious time and resources studying ways to "reduce the risk" of invasive species. This was not authorized by Congress nor is it a credible strategy that will protect our Great Lakes. In addition, please do not waste time and money repeating work that has already been done or is currently in process.

The GLMRIS study is a prevention study and its results should be used first to prevent Asian carp from invading the Great Lakes. The study timeline and strategy must be structured so a solution is delivered prior to the establishment of breeding populations of Asian carp in the Chicago Waterway System.

The GLMRIS timeline must be condensed to produce final results for the Chicago portion within 18 months rather than mid-2015.

Thank you for ensuring the Great Lakes and Mississippi River Interbasin Study adheres to the original intent of Congress and provides solutions to prevent Asian carp from invading the Great Lakes.

## National Wildlife Federation Action Fund Campaign

Asian carp are knocking at the door to the Great Lakes. Please immediately follow the mandate from Congress to study and provide a solution for preventing Asian carp from invading the Great Lakes. It is imperative that the Great Lakes and Mississippi River Interbasin Study (GLMRIS) follow the mandate by Congress to study "options and technologies available to prevent the spread" of invasive species movement between the Great Lakes and Mississippi River. The Corps must not use precious time and resources studying ways to "reduce the risk" of invasive species. This was not authorized by Congress nor is it a credible strategy that will protect our Great Lakes. In addition, please do not waste time and money repeating work that has already been done or is currently in process. The GLMRIS study is a prevention study and its results should be used first to prevent Asian carp from invading the Great Lakes. The study timeline and strategy must be structured so a solution is delivered prior to the establishment of breeding populations of Asian carp in the Chicago Waterway System. The GLMRIS timeline must be condensed to produce final results for the Chicago portion within 18 months rather than mid-2015.

Thank you for ensuring the Great Lakes and Mississippi River Interbasin Study adheres to the original intent of Congress and provides solutions to prevent Asian carp from invading the Great Lakes.
