As a resident of Chippewa Bay on the St Lawrence River I urge you to emply all of your resources to stop the invasion of Asian carp, an invasive fish species that will devastate the fragile ecosystem of the St. Lawrence River and Great Lakes, They would cause irreversible harm to the Great Lakes and St Lawrence River by consuming large quantities of algae and zooplankton, muscling out native fish populations. The estimated impact to the recreational and commercial Great Lakes fisheries would reach to over \$4.5 billion.
