Exert all the energies you possess to PREVENT Asian carp from entering the St. Lawrence River! We cannot wait 5 years for the completion of the current study. Asian carp are a known danger to the way of life along the River. Stopping these fish from invading the River and wiping out the native fish species is ABSOLUTELY NECESSARY to preserve the livelihoods of all those who make their living-or take their vacations- at the River. If the fishing and boating industries are damaged, jobs will be lost and thousands of lives affected. Don't delay -- ACT NOW! Do whatever it takes to KEEP THE CARP OUT.
