I am writing to encourage the prevention of Asian Carp invasion. The future of Lake Erie is at stake. While appropriate study is needed, an action plan must be implemented as soon as possible - waiting almost five years is too long a time. Northeast Ohio is still struggling with alien invaders like the zebra mussel. In the past, members of my family lost their sport fishing business to the lamprey invasion. Swift action is necessary to prevent the Carp from reaching Lake Erie. Thank you taking my brief comments. Please keep me informed on the progress of this important issue.
