I am very concerned about the Asian Carp getting into the Great Lakes. I attended the comment meeting at Traverse City Michigan to gather more information.

First of all I am concerned about stopping the Asian Carp now, and focusing on the other species later. I see an urgency to prevent this entry in the first place. They are so big, voracious, and dangerous to fishermen and recreational users alike. Second I read in the Traverse City Record-Eagle that the Obama administration is being forced to cut funding. That really concerns me because if the carp get in, we will never get them out and they will ruin our tourism and fishing industries .

Please do everything possible to PREVENT THE ENTRY OF ASIAN CARP INTO THE GREAT LAKES.
