Please do NOT play "Russian Roulette" with the Great Lakes. Asian Carp must be stopped at all cost & no rock should be left unturned when it comes to accepting some risk for letting this invasive species to establish itself in the Great Lakes. Some cost now, even in hard times will be far less than the future cost to try to control them later. The loss to tourism will be substantial if the Asian Carp take over the lakes & any money saved now will only result in a poor investment in the future!
