I would like to put the emphasis on RESTORING the Great Lakes as the "protection" has actually not worked over the last century. I live on Braddock Bay [NYS Braddock Bay Wildlife Management Area] on the south shore of L. Ontario. I have been aware of the constant assaults and ongoing degradation since childhood. I urge you to [1] get a grip on the IJC's water levels; [2] shut off the Chicago Sanitary & Ship Canal IMMEDIATELY; [3] at least try to get some ordinary people -- try a woman -- at the highest level of decision-making. We are the ones bearing children with birth defects, breast cancer and other genetic issues; and [4] stop thinking of just the lakes themselves -- you need to restore the GREAT LAKES BASIN and all its tributaries. It's tragic what has happened: <http://westspit.blogspot.com/2010/09/pea-soup.html>
