Please take action to Prevent access and breeding of the Asian Carp in the Great Lakes. The 18 month study is far too long a time...at the end of which it will be too late! We need the separation of the waters of the Mississippi and the Great Lakes to prevent these Asian Carp from ecologically upsetting the environment in the Great Lakes of fish populations and loss of tourism and fishing. Please take some action now...even in these hard economic times. We can't wait!
