Dear elected representative,

I am writing because I am concerned about the invasion of Asian carp in the Great Lakes and the Mississippi. I live along the Erie canal, and have seen the extent to which they multiply and overtake the natural environment. I support the general intentions of GLMRIS, but must demand that it be completed in a shorter time frame, and that it please be geared to STOP the entry of Asian carp into our fresh water systems. Keeping the carp out is essential for keeping our way of life.

Best,

Adair Finucane
