CLOSE that Chicago Sanitary Canal NOW!!!! Time is of the essence here - invasive species are going both ways and establishing residency!!! The Barge Industry can remain healthy if they look into PORTAGING - just like Lewis and Clark did so successfully. Close the entries to the lake and river NOW and then figure out how to PREVENT these species from taking over. C'mon - put a healthy environment first. The barge industry seems to be calling the shots by the big delay in Preventative plans. If our waterways get messed up beyond reclamation, what then? CLOSE those gates NOW!
