Comment Submitted:

I just read a press release on 3-26-2011 that the Army Corps of Engineers finally released a report that they had last fall. That report was withheld from the public. In a statement e-mailed to Phil Moy, Col. Vincent Quarles wrote "We have invoked the deliberative process privilege under Exemption 5 of the Freedom of information Act to withhold the study from immediate release. This is from the Milwaukee Journal 3-18-2011. With only 5 days left for the public to comment. My recommendation is to immediately close the Ship Canal. I would also recommend the immediate removal of the persons responsible for withholding this information from the public until after the public hearings and only giving 5 days to respond. The Corps is dragging its feet and it is now time to act.

Thank you,

Angelo Trentadue
