I am FOR increasing the voltage in the Chicago River due to the carp, even though there are navigation locks in place. We must do whatever possible. We would never be able to undo the damage to our natural eco-system in the Great Lakes and the impact the Carp will have there, but we CAN figure a way to ship our goods an alternate way!!

Protect the Great Lakes system. Please commit to using whatever means possible at this point. We have changed the natural flow of the Chicago River, so should try to undo the negative effect it will place on our beautiful Great Lakes and their balance.
