Your bureaucratic nonsense is quickly becoming as tiring as the BS the Joint Commission feeds the public regarding water levels on Lake Ontario and the St. Lawrence River. Why is it so hard to do the right thing? Yeah, I know, money trumps smarts.

The heck with five more years to study the Asian Carp. Prevent their migration into Lake Michigan now. At the pace you're going, I'll expect to see them in the Thousand Islands a couple of decades from now.

Get on with it!
