A survey of over 400 members of our chapter has shown %100 agreement of the opinion that the Army Corps of Engineers needs to speed up the time allotted to study the spread of Asian Carp in the waterways that lead to the Great Lakes. This invasive species needs to be stopped to preserve our Great Lakes ecosystem for ALL of our interests and not just a few select interests in the shipping and transportation industry. Speed up the study completion and stop the spread of Asian Carp now.
